WHAT YOU INVEST IN

A new company that holds Bond Group's paddle sports, and only paddle sports

What the company owns

Kayaking, canoeing and stand-up paddleboarding across Kerala: 19 funded sites under three hubs and a northern depot by FY31, the Bond Paddle Academy, and the paddle shop.

What Bond Group brings

For its 65.6%: 25 years of water-sports operations, the Bond brand, the Muziris operations, the Academy curriculum and partnerships, and the management team.

What stays outside

Scuba and snorkelling stay with Bond Water Sports; parasailing and speed boats with Bond Adventures. Your money is not used for motorised craft.

Muziris: the two live Muziris sites operate today under a concession held by Bond Water Sports. They move into this company with Muziris Projects Ltd's consent, and investors are told when that consent is given.

Activity ownership as set by the Bond Group board

You may take up the second close first. If investors in this round take all of it, their stake rises to 38.5%.

Share numbers and the ₹100 price are illustrative; the offer letter fixes the face value and premium

YOUR RIGHTS AND PROTECTIONS

A seat at the table and a veto where it matters most

In the proposed terms

Right	What it means for you
Investor director	Investors elect one board member
Related-party veto	Any deal with a Bond Group company needs the investor director's approval
Quarterly reports	Trading, cash, gates and related-party flows
First right on new shares	You can keep your percentage in any later issue
Tag-along	If Bond Group sells, you can sell on the same terms
Dividends and exit windows	Target 30–40% of profit after tax and a yearly exit window, both from FY31

Recommended by the valuation report

Board decision pending; part of the final terms only if adopted.

Price adjustment at Gate 1. If Gate 1 is missed, Bond Group transfers about 1,03,000 shares to investors at no cost, lifting the group's stake from 34.4% to 41.2%.

Promoter lock-in. Bond Group does not sell before FY31.

Down-round protection. Weighted-average anti-dilution if later shares are sold below your price.

Founders invest cash alongside you, at the same price.

Final rights are set out in the shareholders' agreement and articles of association

THE PRICE, TOLD PLAINLY

₹10 Cr is above what the plan alone supports

Method (financial model)	Low	Central	High
Discounted cash flow, 25–30% a year	6.3	7.9	9.4
Venture capital method, 25–35% target return	2.9	5.0	7.9
Probability-weighted scenarios, 15–25%	4.3	7.1	10.9
Average of central values		6.7	
Proposed pre-money		10.0	

What the price also pays for: a live government concession, the Academy curriculum and partnerships, the brand and an experienced team. A plan-based valuation does not capture these.

What the valuation report advises: about ₹8 Cr would be fairer on the plan alone. Keep ₹10 Cr only with the protections on slide 12. The final price is confirmed in the offer letter.

WHAT YOUR INVESTMENT COULD BECOME

Every ₹10 lakh invested, valued in FY33

BASE CASE

₹34.8 lakh

3.5× your money, about 22% a year

30% MORE PADDLERS

₹53.5 lakh

5.3× your money, about 31% a year

DOWNSIDE OR GATE 1 MISSED

≈ ₹5.5 lakh

or less: you could lose a large part of your money

How cash comes back

Dividends of 30–40% of profit after tax from FY31; a **yearly exit window** from FY31 at independent fair value; later, a buy-back, a strategic sale with tag-along, a growth investor, or an SME listing.

How we value FY33

5 × EBITDA of ₹8.38 Cr, plus net cash of ₹14.6 Cr = ₹56.5 Cr for the company. Your stake is 32.3% after the second close, if you do not join it.

RELATED PARTIES AND CONFLICTS

Where Bond Group and this company meet, and how you are protected

Dealing or conflict	How it is handled
Muziris concession held by Bond Water Sports	Moves into this company with Muziris Projects' consent; until then, reported to investors
Kovalam site on Bond's campus	Rent of about ₹3 lakh a year, in the plan, on a written lease
Cross-selling with bondsafarikovalam.com and Bond Membership	Written referral agreement at market rates; quarterly report of flows both ways
Alappuzha Coastal Blueway (₹2 Cr proposed via Bond Water Sports)	Not in this plan until its paddling sits in this company or under written terms
Motorised activities near our sites	Belong to Bond Adventures; separate contracts; none of your money
MD sits on the KATPS Technical Committee	Written recusal from every Bond registration and inspection
Bond Group controls the board	Investor director's veto on every related-party deal

All related-party transactions will be listed in the offer letter and reported quarterly

RISKS TO YOUR MONEY

What could go wrong with the round and the funds

Risk	What we do about it
Demand below plan	Gates: no further money or sites until results are proven; kit moves to better waters
Thin cash in the first monsoon	Lowest month-end cash ₹26 lakh in Oct 2027; five FY28 openings moved to FY29; a standby bank overdraft to be arranged before the monsoon
FY28 bank loan	FY28 EBITDA is slightly negative, so the loan needs a 12-month moratorium or interest-only terms
Muziris consent delayed or refused	Until consent is given, the sites stay with Bond Water Sports; Phase 1 revenue depends on the transfer, and its progress is reported to investors
Price above plan-based value	Shown openly (slide 13); protections recommended by the valuation report
A safety incident	Certified guides, rescue boats, insurance and KATPS registration at every site
Shares are unlisted	Dividends and yearly exit windows written into the shareholders' agreement

Full risk factors are set out in the offer letter (PAS-4)
